PROJECTS

Sharing With Benifits

MongoDB, NodeJS, Jwt, ReactJS

Nowadays, most people want to buy products with offers. But most of the ecommerce sites and retailers are giving offers only for bulk quantities. This app will solve the problem by posting a post in this app, this post can be seen by people. If both the users like the product, the product will be shared equally and the amount will also be shared equally.

E-Commerce

MongoDB, Mongoose, NodeJS, ReactJS

To build an e-commerce site which has a user sign in/signup functionality and view products on site and also user is able to add a product to the cart from where the user can checkout after entering the delivery details and payment details.

Patatap Clone

paperJS, HowlerJS, paperscript, HTML, CSS

Patatap is a portable animation and sound kit. With the touch of a finger create melodies charged with moving shapes.
